Supplement to the

"Proceedings of the Indian Academy of Sciences"

INDEX TO VOL. XLIV—(B)

AUTHORS' INDEX

Bal, D. V. and Ghanekar, D. S.	The enzymes of some elasmobranchs from Bombay, IV, 247.
Bhavanarayana, P. V. ..	*See* Ganapati and others.
Chari, S. T. ..	*See* Venkataraman and others.
Fond, E. C. La ..	*See* Ganapati and others.
Ganapati, P. N., Fond, E. C. La and Bhavanarayana, P. V.	On the vertical distribution of chemical constituents in the shelf waters off Waltair, 68.
Ganju, P. N. ..	The micro-structure of coals from the Jangalgali and Kalakot areas in the Jammu Province, 30.
Ghanekar, D. S. ..	*See* Bal and Ghanekar.
Gnanam, (Miss) P. ..	Conductivity studies in cotton plants infected by *Fusarium vasinfectum* Atk., 125.
Grewal, Jawand Sind ..	*See* Tandon and Grewal.
Hashim, M. ..	Inheritance of leaf rust reaction in crosses of Vulgare wheats, 38.
Kamat, D. N. ..	The structure of the golgi elements and mitochondria in earthworms and lamellibranchs, 91.
Kaur, R. B. ..	*See* Narayanan and others.
Lakshminarayanan, K.	Physiology of host-parasite relationship in the *Fusarium* wilt of cotton, I, 317.
Majumdar, G. P. ..	Adventive leaf-buds of *Eranthemum bicolor*, 57.
Mirashi, M. V. ..	Contribution to our knowledge of the physiological anatomy of some Indian hydrophytes, IV, 177.
Misra, Gadadhar ..	Photoperiodism in rice, IX, 108.
Narayanan, E. S., Rao, B. R. Subba and Kaur, R. B.	Studies on the biology of the parasites of the pea leaf miner *Phytomyza atricornis* (Meigan), 137.
Natarajan, S. ..	Carbon nitrogen metabolism of soil fungi, I, II, 289, 300.
Nerurkar, M. K. and Sahasrabudhe, M. B.	Influence of combined administration of Vitamin A and calcium ethylene-diamine tetraacetate on the elimination of radium D in rats, 73.

Pillai, V. Krishna .. Chemical studies on Indian seaweeds, I, 3.

.. Chemical composition of lagoon muds, 130.

Puri, V. D. .. On preparation of wing neurations in lepidoptera, 329.

Ramakrishnan, T. S. .. Notes on some fungi from South India, V, 114.

Ramakrishnan, T. S. and Seethalakshmi, V. Studies in the genus phytophthora, IV, 79.

Ramakrishnan, T. S. and Sundaram, N. V. The life-history of *Puccinia blepharidis* P. Henn., 325.

Rao, B. R. Subba .. *See* Narayanan and others.

Rao, K. Virabhadra .. Seasonal gonadal changes in the adult backwater *oyster, ostrea, (Crassostrea) madrasensis* Preston from Ennur near Madras, 332.

Rao, L. Rama .. Recent contributions to our knowledge of the cretaceous rocks of South India, 185.

Sahasrabudhe, M. B. .. *See* Nerurkar and Sahasrabudhe.

Sanwal, B. D. .. Polyphenoloxidase and ascorbic acid oxidase activity in tomato plants infected with *Fusarium lycopersici* Sacc., 257.

Saraswathy Royan .. Variations in the structure of the nucleus in living yeast, 47.

.. Structures revealed by dark ground illumination in living yeast, 171.

.. Phenomena preceding sporulation in *Schizosaccharomyces octosporus*, 311.

Sastry, A. S. .. Studies with superimposed carbohydrates in the flue-curing of tobacco, I, II, 148, 162.

Saxena, B. N. .. *See* Sharma and Saxena.

Seethalakshmi, V. .. *See* Ramakrisnhan and Seethalakshmi.

Shanta, (Miss) P. .. Isolation of *Cercospora personata*—its sporulation and growth in pure culture, 271.

Sreenivasan, A. .. *See* Venkataraman and others.

Subramanian, C. V. .. *Phæotrichoconis*, a new genus of the Dematiaceæ, 1.

.. Microtypha, 122.

Sundaram, N. V. .. Ramakrishnan and Sundaram.

Tandon, R. N. and Grewal, Jawand Singh — Effect of nitrogen nutrition on growth and sporulation of some pathogenic fungi, 61.

Thyagarajan, T. R. .. Some observations on the living cells of *Saccharomyces carlsbergensis* from twenty-four hour agar slants with phase contrast and dark ground illumination, 278.

Venkataraman, R., Chari, S. T. and Sreenivasan, A. — A hydrological investigation of large-scale fish mortality in a temple tank, 85.

TITLE INDEX

Cells, living, of *Saccharomyces carlsbergensis* from twenty-four hour agar slants, some observations, with phase contrast and dark ground illumination (Thyagarajan), 278.

Cercospora personata, isolation of—its sporulation and growth in pure culture (Shanta), 271.

Chemical constituents, vertical distribution, in the shelf waters off Waltair (Ganapati and others), 68.

Coals from the Jangalgali and Kalakot areas in the Jammu Province, the microstructure (Ganju), 30.

Cotton plants infected by *Fusarium vasinfectum* Atk., conductivity studies (Gnanam), 125.

Cretaceous rocks of South India, recent contributions to our knowledge (Rao), 185.

Elasmobranchs, some, from Bombay, the enzymes of, IV, (Bal and Ghanekar), 247.

Eranthemum bicolor, adventive leaf-buds (Majumdar), 57.

Fish mortality in a temple tank, large-scale, a hydrological investigation (Venkataraman and others), 85.

Fungi from South India, some, notes, V (Ramakrishnan), 114.

Fungi, soil, carbon nitrogen metabolism, I, II (Natarajan), 289, 300.

Fusarium wilt of cotton, physiology of host-parasite relationship (Lakshminarayanan), 317.

Golgi elements and mitochondria in earthworms and lamellibranchs, the structure (Kamat), 91.

Hydrophytes, some Indian, physiological anatomy, contribution to our knowledge, IV (Mirashi), 177.

Lagoon muds, chemical composition (Pillai), 130.

Leaf rust reaction in crosses of vulgare wheats, inheritance (Hashim), 38.

Lepidoptera, wing neurations in, on preparation (Puri), 329.

Microtypha (Subramanian), 122.

Nitrogen nutrition, effect, on growth and sporulation of some pathogenic fungi (Tandon and Grewal), 61.

Nucleus in living yeast, the structure, variations (Saraswathy Royan), 47.

Ostrea (*crassostrea*) *madrasensis* Preston from Ennur near Madras, adult back-water oyster, seasonal gonadal changes (Rao), 332.

Phœotrichoconis, a new genus of the Dematiaceæ (Subramanian), 1.

Photoperiodism in rice, IX (Misra), 108.

Phytomyza atricornis (Meigan), the pea leaf miner, the parasites of, studies on the biology of (Narayanan and others), 137.

Phytophthora, genus, studies, IV (Ramakrishnan and Seethalakshmi), 79.

Puccinia blepharidis P. Henn., the life-history (Ramakrishnan and Sundaram), 325.

Radium D in rats, elimination, influence of combined administration of Vitamin A and calcium ethylene-diamine tetraacetate (Nerurkar and Sahasrabudhe), 73.

Schizosaccharomyces octosporus, phenomena preceding sporulation in (Saraswathy Royan), 311.

Seaweeds, Indian, Chemical studies (Pillai), 3.

Specimens, some mycological and plant pathological, permanent dry preservation, a new technique (Sharma and Saxena), 276.

Tomato plants infected with *Fusarium lycopersici* Sacc., polyphenoloxidase and ascorbic acid oxidase activity (Sanwal), 257.

Tobacco, flue-curing, studies with superimposed carbohydrates, I, II (Sastry), 148, 162.

Yeast, living, structures revealed by dark ground illumination (Saraswathy Royan), 171.
